

Olivier Bernard is research director at the French Institute for Research and Automatic Control (Inria). He is engineer from the Ecole Centrale de Lyon and get a master degree in Control Science in 1992. He obtained a Ph.D. degree in Biological Oceanography from the University Paris VI in 1995, with a PhD thesis dealing with the nitrogen limited growth of *Dunaliella tertiolecta*. From 1996 to 1998 he was a Postdoctoral Fellow at the Centre for Systems Engineering and Applied Mechanics (CESAME), UCL. Since 1999 he works as Senior Research Scientist at Inria, in the BIOCORE research team (Control of Artificial ecosystems) which gathers biologists and mathematicians. O. Bernard coordinated several national and European projects on microalgae and/or anaerobic digestion. He is author of more than 170 publications in scientific journals in the field of automatic control, biotechnology, phycology, metabolism modelling and Life Cycle Analysis.
