Marco Agostini CV

Main work experiences

- November/2020 – today: Quality and quantity (Q&Q) claim operator
Eni trading and Biofuels, Rome.
- October/2020 – November 2020: Research fellowship
“Sapienza” university of Rome, Chemistry Department;
Class: Investigation of Lithium energy storage systems
Supervisor: Professor Maria Assunta Navarra
- February/2020-September 2020: Parental leave absence
- February/2016-January 2020: Research fellowship
Chalmers University of Technology;
Class: Development and investigation of Lithium and Sodium
energy storage systems
Supervisor: Professor Aleksandar Matic
- April/2012-January/2016: Research fellowship
“Sapienza” university of Rome, Chemistry Department;
Class: Development of new electrodes and electrolytes materials
for applications in high energy storage systems
Supervisor: Professor Bruno Scrosati

Others work experiences

- February/2010-June/2011: Laboratory Assistant
“Sapienza” university of Rome, Chemistry Department;
Sector: Macromolecules Chemistry
Main Activities: Laboratory organization and tutor activities for students
Supervisor: Professor Antonella Piozzi
- February/2009-June/2009: Laboratory Assistant
“Sapienza” university of Rome, Chemistry Department;
Sector: Industrial Chemistry

14/5/2021

Main Activities: Laboratory organization and tutor activities for students

Educational

November/20011-November/2014: PhD in Materials Science

Main subject: “Sapienza” university of Rome, Chemistry Department;
Lithium-ion and Lithium sulfur batteries
Thesis name: “High Energy Lithium-Ion and Lithium-Sulfur Batteries”
Supervisor: Professor Bruno Scrosati

October/2009-October/2011: Master degree in industrial chemistry, **110/110 with honors**

Main subject: “Sapienza” university of Rome, Chemistry Department;
Environment, power sources and safety.
Thesis name: “Sulfur-based composite electrodes for high-energy storage”
Supervisor: Professor Bruno Scrosati

October/2006-December/2009: Bachelor degree in industrial chemistry, **110/110**

Main subject: “Sapienza” university of Rome, Chemistry Department;
Materials and new energy resources.
Thesis name: “Synthesis and characterization of polymer blends”
Supervisor: Professor Antonella Piozzi

International collaborations

- 1) Research collaboration with the group of Professor Yang-Kook Sun at the Hanyang University, Seoul, South Korea,. The main topic of the research has been the development of advanced electrodes/electrolytes systems for application in Li-S based battery systems. Different visits at Hanyang University during the **2017-2019. (3 months in total)**
- 2) Research collaboration with the group of Dr. Sergio Brutti at the University of Basilicata, Potenza, Italy. The main topic of the research has been the analysis of electrochemical reactions in Li-ion batteries. Different visits at the University of Basilicata during **2017-2018. (1 month in total)**
- 3) Research collaboration with Dr. Yuichi Aihara from the Samsung R&D Institute, Osaka, Japan, under the supervision of Professor Bruno Scrosati and Professor Jusef Hassoun from the University of Rome “Sapienza”. The main topic of the research was the development of solid state battery prototype and investigation of electrochemical mechanism. During the last 2 years we have the opportunity to start a collaboration with the same group and in particular with Dr. Yuichi Aihara starting the investigation of the electrochemical mechanism through *operando* Raman spectroscopy. **2012-todays.**

14/5/2021

- 4) Research collaboration with the group of Professor Aleksandar Matic, at the Chalmers University, Gothenburg, Sweden, under the supervision of Professor Jusef Hassoun from the University of Rome "Sapienza". The main topic of the research has been the investigation of the Li interface in Li-S battery systems when using polysulfides in the electrolyte solution. Period of visit **June-August 2014 (3 months)**.
- 5) Research collaboration with the group of Professor Tetsuya Osaka at the Waseda University, Tokyo, Japan, under the supervision of Professor Bruno Scrosati and Professor Jusef Hassoun from the University of Rome "Sapienza". The main topic of the research has been the development of advanced Li-ion sulphur based battery. Period of visit **June-August 2013. (2 months)**
- 6) Research joint collaboration with Volkswagen AG group, Wolfsburg, Germany, with the researcher Dr. Chiara Poggi, under the supervision of Professor Bruno Scrosati and Professor Jusef Hassoun. The main topic of the research has been the development of Li-S polysulfide based system. Period **2011-2012**.
